(B) Practice:

Grammar/Content Focus: 1.

Exercise Presentation

Interactions/Text/Directions

You are going to give a presentation on your reading habits in under two minutes. The following questions may help you:

How often do you read?

At what time of day do you read?

What is your favourite type of book?

What is your favourite book and what happens in it (**characters**, events)? Why do you like it?

Example answer: I read a book every week. I go to the library twice a month. I usually read books after I do my homework. I like detective stories best because they are exciting. My favourite book is **Smart Ted**. Ted is a detective. A prisoner called **Black Jack** gets away from prison. He is a greedy, wicked man who does a lot of bad things. Ted has to catch him and he looks for him everywhere. Although there are a lot of difficulties, Ted does not give up. He catches Jack and puts him into prison again.

This story is exciting and the ending is surprising. I have read it three times. I like Ted very much because he is brave and smart.
